ARTICLES

Edivaldo Ximenes Ferreira Filho Purification and characterization of a β-glucosidase from solid-state cultures of *Humicola grisea* var. *thermoidea* 1

Julián Nevado and Claudio F. Heredia Galactose induces in *Saccharomyces cerevisiae* sensitivity of the utilization of hexoses to inhibition by D-glucosamine 6

Mohamed Guessouss, Kamel Ben-Mahrez, Cherifa Belhadj, and Omrane Belhadj Characterization of the drug resistance plasmid R2418: restriction map and role of insertion and deletion in its evolution 12

Josefina Enfedaque, Santiago Ferrer, Joan Francesc Guasch, Joan Tomás, and Miguel Regué Bacteriocin 28b from *Serratia marcescens* N28b: identification of *Escherichia coli* surface components involved in bacteriocin binding and translocation 19

John H. Bowers, Linda L. Kinkel, and Roger K. Jones Influence of disease-suppressive strains of *Streptomyces* on the native *Streptomyces* community in soil as determined by the analysis of cellular fatty acids 27

Edwin H. Battley On the thermodynamics of autotrophic and heterotrophic growth of *Pseudomonas saccharophila* 38

Geoffrey S. Gottlieb and Michael A. Fennewald UV photoaffinity labeling of Tn*3* transposase–DNA complexes: identification of DNA binding domains 46

A. Jolivet-Gougeon, A.S. Braux, F. Sauvager, M. Arturo-Schaan, and M. Cormier Influence of peracetic acid on *Escherichia coli* H10407 strain in laboratory microcosms 60

NOTES

Annette D. Davison, Peter Karuso, Daniel R. Jardine, and Duncan A. Veal Halopicolinic acids, novel products arising through the degradation of chloro- and bromo-biphenyl by *Sphingomonas paucimobilis* BPSI-3 66

Perry E. Olsen, Wendell A. Rice, Lucien M. Bordeleau, A.H. Demidoff, and Mandy M. Collins Levels and identities of nonrhizobial microorganisms found in commercial legume inoculant made with nonsterile peat carrier 72

Merlin Manavathu, Suresh Gunasekaran, Quallyna Porte, Elias Manavathu, and Muthukumaran Gunasekaran Changes in glutathione metabolic enzymes during yeast-to-mycelium conversion of *Candida albicans* 76

Joanna Shotbolt-Brown, David W.F. Hunter, and Jackie Aislabie Isolation and description of carbazole-degrading bacteria 79

Cecilia M. Creus, Rolando J. Sueldo, and Carlos A. Barassi *Azospirillum* inoculation in pregerminating wheat seeds 83

Rafael Montilla, M.A.R. Chowdhury, A. Huq, B. Xu, and Rita R. Colwell Serogroup conversion of *Vibrio cholerae* non-O1 to *Vibrio cholerae* O1: effect of growth state of cells, temperature, and salinity 87

B. Qian and F.S.B. Kibenge Restriction fragment profiles of genome segment A of infectious bursal disease virus correlate with serotype and geographical origin of avibirnaviruses 93
